20-23 Finishing Touches

For more than a quarter of a century we have been at the forefront of the design and development of high performance aluminium glazing systems.

Today we offer a flexible range of products that are ideally suited to meet the demands of both traditional and new-build homes. Naturally strong and easy to maintain, it's easy to see why aluminium doors are a popular choice and a smart investment. Offering exceptional durability which outperforms traditional timber systems and providing a sleeker, more attractive finish than PVC-U, all of our aluminium windows and doors are manufactured here in the UK to meet the highest safety and security standards.

They are also fully recyclable and energy-efficient so can help reduce your carbon footprint and heating bills too. The strength of aluminium allows our windows to support much larger spans of glazing within a slim frame and this gives uninterrupted views and greater light diffusion to transform not only how your home looks, but how it feels.

"Our motto is to 'give our customers what they want, when they want it', which is why you'll find our range of high quality doors and windows is fully supported by a trusted and reliable network of installers across the UK."

Mark Wadsworth, Managing Director

products that
perform

Beautiful designs that are built to last.

Our attractive aluminium windows offer the best of both worlds, combining style with substance. Helping to perfectly frame your views and bathe living spaces in natural light, our aluminium windows also offer exceptional acoustic and thermal performance to enhance the look and feel of your home.

- Save money on your heating bills
- Help reduce external noise pollution
- Future-proof your home by improving its energy-efficiency
- Enjoy cosy and peaceful interiors whatever the weather

security built in

Home is where the heart is, which is why we are passionate about helping you and your family feel safe and secure.

Available in a choice of opening styles and with a variety of locking systems and hardware, our range of aluminium windows has been developed to offer the very best security features and our aluminium windows are fully compliant with the latest security regulations, including the requirements

of PAS 24:2016, approved document Q of the Building Regulations and Secured by Design. This gives our customers the reassurance of knowing that all our windows have been independently checked, tested and certified.

windows.**

Whether you're inspired by the latest design trends or you want to complement an existing décor scheme, our aluminium windows are available in an almost unlimited range of colours and finishes to suit your individual tastes.

putting quality
in the frame

Built to last and easy to maintain, aluminium windows are a great long-term investment and can add value to your home in more ways than one.

A modern bathroom interior featuring a large window, a freestanding bathtub, a wooden stool with towels, and a patterned tile floor. The scene is brightly lit, suggesting a sunny day. The bathtub is white with a subtle geometric pattern. The floor is covered in black and white geometric tiles. A wooden stool with three legs holds two rolled-up white towels. A small wooden mat is placed on the floor in front of the tub. The window is large and framed in dark grey, providing a view of trees outside. A white sink with a wooden vanity is visible on the right side of the frame. A single pendant light hangs from the ceiling on the right.

Ali VU windows

Thermally efficient, with a high-performance polyamide thermal break.

Compatible with both double and triple glazing for extra thermal and acoustic efficiency. Fully security and weather tested.

Hard-wearing, durable and easy to maintain.

AliVU
WINDOW SYSTEMS

Re-frame the look of your home with Ali VU - our stylish and flexible aluminium window system.

Aluminium is becoming the material of choice for windows in homes across the country and one look at our Ali VU windows tells you why. Sleeker than PVCu and easier to maintain than timber, the natural strength of aluminium means larger spans of glazing can be supported in much slimmer frames to really 'open' up your home, giving uninterrupted views and copious amounts of natural light.

Offering a wide range of benefits and design options, Ali VU is perfectly at home in both new and period properties.

Ali VU windows: design options

Versatile, affordable and built to last, our Ali VU Aluminium top or side hung casement windows offer a range of different design features to match you and your home's individual style.

Versatile, affordable and built to last, our Ali VU aluminium windows can be used to create exciting new design schemes or to complement existing architectural features. The Ali VU system is available as a top or side hung casement window and benefits from a slim yet secure aluminium frame which allows you to create light and airy interiors with maximum peace of mind.

The perfect partner to our range of Ali aluminium doors

- Choice of square or chamfered beads

Available in an almost limitless range of colours and finishes

- Both standard and feature (ovolo style) outerframes

Durable and easy to maintain, with a life expectancy in excess of 40 years

- Radius, flat faced, stepped and flush faced vent options

Ali VU Casement

Traditional top-hung window

Ali VU French Window

Elegant design for wider openings

Casement Style: For a sleek and modern look, we can offer a flush casement option. This attractive style of window creates a clean and contemporary finish, with the window closing 'flush' to the outer frame.

FrenchWindow: Our Ali VU aluminium windows are also the perfect partner for period properties, and the use of a stepped face option makes Ali VU an ideal replacement or heritage style steel windows.

Glazing options. Available in double or triple glazing. Up to 36mm (radius and stepped faced vent), up to 44mm (flat faced vent) and up to 60mm (flush vent)

U values. Ali VU: as low as 1.0 W/m²K
